

WORLD PREMIERE

From the award winning producer of 'Come Together - The Beatles Rock Show', prepare for an evening celebrating the musical genius of Queen.

A lineup of all-star musicians fronted by the charismatic Rachel Vidoni gives the live rock theatrical event a new interpretation of the most unique, British Rock band of the '70s and '80s.

Additionally, this show features a spectacular cast of dancers, taking this stadium concert event to the next level. With powerful chorus vocals incorporated with the fusion of heavy metal, glam rock, and camp theatrics, this will be a tribute concert unlike any other.

Executed with finesse of The Little Things Productions, expect the unexpected and unleash your inner Queen.

CONCEPT SOFT LAUNCH - JULY 2023 - REVIEW

"Her Majesty is the re-imaging – Vidoni style – of internationally renowned band: Queen. Sauntering on stage in a stunning red, glittery body suit and full-length cape, Vidoni was a vision as she launched into a powerful version of The Show Must Go On.

The drama that exuded from her vocals alone was a testament to the quality of performance we would be treated to... If this show was considered the dress rehearsal, the hard launch, most likely at the 2024 Adelaide Fringe, will be one not to miss."
